Decrease in cost of elementary schools,	\$1,944 00

Your school board is deeply conscious of its obligation, in this critical period, to scrutinize very carefully every item in its budget. It should be borne in mind, however, that Swanzy maintains only the schools required by law, hence practically every item is statutory. Being a state-aid district complicates the problem. Yet your Board presents a budget for the support of schools that is approximately \$2,000 less than last year. But the great increase in the statutory requirement for high school tuitions has made it impossible to decrease the total amount.

Your board does not feel that the assessment recommended can be materially reduced without running the danger of impairing the efficiency of the schools or reducing the state-aid allotment.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Swanzev :

I have the honor to submit, herewith, my seventh annual report.

BUILDINGS AND GROUNDS: All the buildings were thoroughly cleaned and necessary minor repairs made. In addition, the following improvements were made: new curtains in the grammar room at the Cutler School and at East Swanzev; the playground was enlarged at the Factory and the school yard surrounded with a wire fence; steel ceilings were installed at the Factory and Number 9.

TEACHERS AND PUPILS: There were only two changes in the teaching staff. Matrimony claimed Miss Whitney of East Swanzev and Miss Anne B. Tankard of Berlin, New Hampshire, a graduate of Keene Normal School, from the three-year elementary course, was elected to fill the vacancy. Miss Ruth Martin, Supervisor of Art, resigned to accept a more lucrative position in Claremont. Her place is being filled by Miss Stella E. Tosi of Rutland, Vermont, a graduate of the three-year Art Supervisory Course at the Keene Normal School.

It might be interesting at this time to consider the cost of schools in Swanzev in comparison with the cost in our own state. In 1930-31, the median cost among 240 school districts in New Hampshire was \$83.67 per pupil. This means that 120 school districts spent more than \$83.67 while 120 spent less. In the same year, the per pupil cost in Swanzev was \$64.78 or \$18.89 less than the median.

In the way of finances, the most perplexing problem we face is to adequately estimate now what the cost of High School

tutions will be next year. Both the rate of tuition and the number of pupils have shown steady increases. The following table shows the situation at a glance:

	Pupils	Rate	Amount
1928-29	63	\$81.83	\$4,687.75
1929-30	54	85.40	5,503.62
1930-31	63	87.59	6,229.08
1931-32	78	95.91	7,500.00 (est.)
1932-33 (est.)	95		8,700.00 (est.)

As to the estimate of 95 pupils for next year, 78 pupils were registered in Keene High last fall. Of these only four are seniors, leaving possibly 74 for next year. In our eighth grade, we have 31 pupils enrolled and it is reasonable to expect at least 20 of them will enter high school. It would seem to me that we have about reached the saturation point, that is, that we have reached the point where there are in high school attendance about all the pupils who should be there. Yet, we must remember that Swanzey is one of the few towns in Cheshire county that is growing in population. The census shows that, as does also the per capita tax in the school board's budget, as being \$56 more than last year which represents 28 more pupils between 5-16 years of age.

Again I wish to express my appreciation to the School Board, to the teachers and pupils, and to the parents and patrons of the schools for their loyalty and co-operation, and trust that the same cordiality and harmony may continue throughout this critical period which confronts us. **LET'S KEEP OUR CHILDREN FIRST.**

Respectfully submitted,
WESLEY H. DOUGLASS,
 Superintendent of Schools.

Winchester, N. H.
 February 16, 1932.

WHERE YOUR TREASURE IS—Many a man has come to the end of life only to realize too late that the values for which he spent his precious years were not the real values. He has toiled for self or fame or power or money only to discover that the human values tower above them all. The kindness of neighbors; the affection of friends; the love of dear ones; worthy work well done; treasures of truth and faith carefully taught to a generation ready and eager to carry on—these are the values that make life rich and abundant. It is for these values that teachers and schools stand. These are the values that are needed just now. The depression has reached the final psychological stage. Recovery is a matter of faith. We can hoard our money, starve our fellows, reduce salaries, lower standards of living, and paralyze those vital marginal industries that depend on generous buying power, or we can recognize frankly that our real treasure is human life and set about to conserve and strengthen the vital values. We can put children first and keep them first, knowing that it is they who must carry the torch tomorrow if civilization is to march forward. Of course, this will mean sacrifice, but sacrifice in order that children may have educational opportunity is no new thing in America. Most of the men and women who today are the backbone of our republic hold their present places because farsighted parents knew that children came first, and had the grace and the courage to do without, that sons and daughters might have a better life than theirs had been. That is the real American spirit. In that spirit let us keep the schools at their best. Our great national treasure is the children. Let's keep the CHILDREN FIRST.
